OFFICIAL CLIENT MANUAL • THEME V1.0.5

BridgeNova Website Management & Editing Guide

A comprehensive, step-by-step non-technical walkthrough for website owners and content managers to edit every section, page, banner, and FAQ without writing code.

PLATFORM	THEME RELEASE	LIVE PREVIEW
WordPress (Block + Customizer)	BridgeNova 1.0.5	Appearance > Theme Options

© 2026 Bridge Global Network. All rights reserved. BridgeNova Administrative Handover Documentation

1 Introduction & Core Architecture

Your BridgeNova website has been engineered specifically for **effortless client management**. You do not need any coding or web development experience to keep your site updated, replace photos, add events, change FAQ questions, or publish new announcements.

Dual-Layer Content Management System

Your website provides two intuitive management methods tailored to different types of content:

- **Theme Customizer ("Theme Options"):**

  Real-time visual editor for the Homepage, Hero banner, Impact counters, FAQ accordion, Contact info, and Footer.

- **WordPress Page Editor (`the_content()`):**

  Standard visual block editor for custom page content (About Us, Services, Contact, Team, Partners, Speakers, Events).

How to Access the WordPress Admin Dashboard

1 Navigate to Admin URL

Open your browser and navigate to `https://yourdomain.com/wp-admin` (or `/wp-login.php`).

2 Sign In with Client Credentials

Enter your Administrator username and password. You will arrive at the main WordPress Dashboard.

3 Access Direct Edit Links

In the left sidebar, look for **Appearance > Theme Options (Edit All Sections)**. Alternatively, when viewing your live website while logged in, simply click **Customize** in the top black admin bar.

2 Quick Reference: What to Edit Where

Website Section	Where to Edit	Editor Type
Hero Title, Eyebrow & Banner Photo	`Appearance > Theme Options > Hero Section`	Visual Customizer

Website Section	Where to Edit	Editor Type
Impact Statistics (500+ Members, etc.)	`Appearance > Theme Options > Stats & Impact Counters`	Visual Customizer
About Section on Homepage	`Appearance > Theme Options > About Section`	Visual Customizer
Six Strategic Pillars (01 to 06)	`Appearance > Theme Options > Six Strategic Pillars`	Visual Customizer
Frequently Asked Questions (FAQ)	`Appearance > Theme Options > FAQ (Frequently Asked Questions)`	Visual Customizer
Central Phone, Email & Social Links	`Appearance > Theme Options > Contact & Social Info`	Visual Customizer
Footer Brand Summary & Copyright	`Appearance > Theme Options > Footer & Copyright`	Visual Customizer
Individual Pages (About, Services, Team…)	`Pages > All Pages > [Select Page] > Edit`	WordPress Block Editor
Upcoming Events & Workshops	`Events > Add New / All Events`	Custom Post Type
Leadership Team Bios & Photos	`Team Members > Add New`	Custom Post Type

3 Editing via Visual Theme Options

The **BridgeNova Theme Options** panel is built into the native WordPress Customizer. As you type changes or upload new photos, a live preview on the right shows exactly how the website will look before you publish.

How to Open the Visual Customizer:

Go to **Appearance > Theme Options (Edit All Sections)**, or open your homepage and click **Customize** at the top of your screen.

01 Hero Section

Eyebrow Text: The gold uppercase subtitle (e.g. *Global Connections*).
Hero Title: Main heading (e.g. *Building Bridges Across Borders*).
Description: Intro paragraph explaining BRIDGE's mission.
Hero Background Image: Click "Select Image" or "Upload" to change the high-resolution hero background photo.
Action Buttons 1, 2, 3: Configure button text and link URLs (e.g. *Join BRIDGE*, *Event Registration*, *Contact Us*).

02 Stats & Impact Counters

Configure the 4 large animated gold numbers displayed below the hero:

- **Metric 1:** Number (e.g. `59` or `500+`) and Label (*Members*).
- **Metric 2:** Number (e.g. `11` or `30+`) and Label (*Countries*).
- **Metric 3:** Number (e.g. `10` or `50+`) and Label (*Programs*).
- **Metric 4:** Number (e.g. `20` or `100+`) and Label (*Partners*).

03 About BRIDGE Section

Controls the introductory showcase on the homepage:

- **Section Eyebrow:** (e.g. *About BRIDGE*)
- **Section Main Title:** (e.g. *Building Bridges for a Better Future*)
- **Paragraph 1:** Primary mission and organizational statement.
- **Paragraph 2:** Secondary impact and reach statement.

04 Six Strategic Pillars

Allows updating titles and detailed descriptions for all six framework cards:

- **Pillar 01:** Leadership Development
- **Pillar 02:** International Exchange
- **Pillar 03:** Global Dialogue & Diplomacy
- **Pillar 04:** Innovation & Entrepreneurship
- **Pillar 05:** Global Careers
- **Pillar 06:** Community Development & Impact

Publishing Your Customizer Edits

Instant Live Updating:

When you are satisfied with your edits in the preview, click the blue **"Publish"** button at the top of the customizer sidebar. Your changes immediately go live to all visitors.

4 Frequently Asked Questions (FAQ) Accordion

The FAQ section is fully dynamic. The accordion automatically features smooth animated expand/collapse functionality with gold rotation indicators. You can manage questions 1 through 8 directly from the Customizer.

1 Open FAQ Panel

Go to **Appearance > Theme Options > Frequently Asked Questions (FAQ)**.

2 Edit Questions and Answers

Each FAQ has a dedicated **Question** text field and **Answer** text box. You can modify any existing answer or rewrite questions at any time.

3 Hiding or Deleting an FAQ

If you have fewer than 8 FAQs, simply **leave the Question field blank**. The website will automatically hide that FAQ accordion item so no empty space appears.

5 Contact Details, Social Media & Footer

Contact & Location Information

Controls contact information shown across the Header, Contact Page, and Footer:

- **Email Address:** Central inquiry email (e.g. `info@bridgeglobalnetwork.org`).
- **Phone Number:** Official phone / WhatsApp line.
- **Office Location:** Physical city/country (e.g. *Islamabad, Pakistan*).

Social Media Channels

Enter the direct URLs to your organization's social profiles. Leaving any URL blank will hide that icon automatically:

- **Facebook:** `https://facebook.com/yourpage`
- **Instagram:** `https://instagram.com/yourhandle`
- **LinkedIn:** `https://linkedin.com/company/...`
- **YouTube & X (Twitter):** Full channel URLs.

Footer Brand Overview & Copyright Notice

Located under **Appearance > Theme Options > Footer & Copyright**:

- **Footer Bio / Description:** A short paragraph describing BRIDGE at the bottom left of the footer.
- **Copyright Line:** The copyright statement (e.g. *© 2026 Bridge Global Network. All rights reserved.*). The theme automatically keeps the current year up to date.

6 Editing Pages via WordPress Page Editor

All page templates have been built with full native support for WordPress's page content loop (`the_content()`). You can easily add text, images, video embeds, download buttons, or custom notices to any page.

Step-by-Step: Updating a Page

1 Locate the Page in WordPress Admin

From your WordPress dashboard, navigate to **Pages > All Pages**. Hover over the page you want to update (e.g. **About Us**, **Services**, **Our Team**, or **Contact Us**) and click **Edit**.

2 Add or Edit Content

Use the standard WordPress Block Editor (Gutenberg) to type paragraphs, insert bulleted lists, add image blocks, embed YouTube videos, or paste notices.

3 Update and Save

Click the blue **"Update"** button in the top right corner. Your added content will seamlessly display on that page styled to match the dark navy and gold theme aesthetic.

7 Managing Dynamic Content: Events & Team

Managing Upcoming Events

Go to **Events > Add New** in the left sidebar:
• **Title:** Event Name (e.g. *BRIDGE Youth Leadership Summit 2026*).
• **Featured Image:** Upload a high-quality landscape image (16:9 aspect ratio recommended).
• **Excerpt / Meta:** Add the event date, time, and location (e.g. *October 24, 2026 • Islamabad*).
Published events automatically appear in the 3-column event grid on the homepage and on the `/events-bridge/` page.

Managing Team Members

Go to **Team Members > Add New**:
• **Title:** Member's full name.
• **Featured Image:** Headshot photo (portrait aspect ratio recommended).
• **Content Body:** Member biography and qualifications.
• **Excerpt / Custom Fields:** Position or title (e.g. *Executive Director*) and LinkedIn profile URL.

8 Navigation & Dropdown Menu Controls

The primary menu features a **single dropdown indicator** (▾) with smooth 180° hover rotation on desktop and responsive touch accordion support on mobile devices.

> **To Rearrange or Add Menu Items:**
>
> Go to **Appearance > Menus**. Select the **Primary Menu**. Drag items up, down, or indent them to the right to create dropdown submenus. Click **Save Menu**.

9 Image Dimensions & Media Best Practices

To keep the website loading lightning-fast across all devices while maintaining razor-sharp visuals on high-resolution displays, adhere to these recommended image specifications:

Location	Recommended Dimensions	Format	Max File Size
Hero Background Banner	1920 × 1080 px (Landscape)	WebP or JPG	< 350 KB
Event Cards	800 × 500 px (16:10)	WebP or JPG	< 150 KB
Team Member Photos	600 × 750 px (4:5 Portrait)	WebP or JPG	< 120 KB
Gallery Showcase	1200 × 800 px (Landscape/Portrait)	WebP or JPG	< 250 KB
Partner Logos	400 × 200 px (Transparent)	PNG or SVG	< 60 KB

10 Client Troubleshooting & FAQ

? I edited a section in the Customizer, but don't see it on my phone?

Ensure you clicked the blue **"Publish"** button in the Customizer. Then, perform a hard refresh on your mobile browser by clearing cache or opening in a private/incognito window.

? How do I hide an FAQ that is no longer relevant?

Go to **Appearance > Theme Options > Frequently Asked Questions** and delete the text inside the *Question* field for that item. The website will automatically hide that accordion row.

? Where do Contact Us and Event Registration submissions go?

Form submissions are delivered immediately to the administrator email address configured in **Settings > General** and in the Theme Options **Contact Email** field.

Website Handover Complete

Theme Version

1.0.5

has passed all PHP 8.2 code syntax checks and is actively running on your server. All files, customizer options, and dynamic templates are fully unlocked for client management.
